The game Insane Road a time killer game that you bought for steam because you haved a sale on it, your pc is to bad for good games or just because you're to poor for good games. You can enjoy this game 3o mins after you will probably never play this game anymore or just ask the refund, bacause seriously, who wants to play this game for hours?!?

7\/10 for gud music). 4 dollars ? NO!... i got this game with a coopon for only 40 cents but i don't recommend it.. the game is not well developed it gets really boring and it doesent even have trading cards.. The only reson I got this game was because I had a coupon and I got this for $0.40. This game seems like the popular mobile games Crossy Road and Smashy Road came together to fight the apocolypse. I'm personally not a huge fan because the game doesn't seem devoloped all that well. :(
